Total Sulphites: 32 mg/L

This wine is fermented spontaneously.

Other Information: Ampeleia is born from the synergistic blend of different grape varieties sourced in vineyards found on the hillsides dominated by the town of Roccatederighi, in the heart of Maremma. It embodies this land from the chestnut woods on higher ground, through the Mediterranean scrubland, to the lower fields with cork-oak woods. Six grape varieties are blended in this wine aspiring to represent the Mediterranean tradition of cultivating diversity.
